

DIAGNOSTIC REVIEW & IMPROVEMENT PLANNING

*Through this collaborative process, schools and districts have the opportunity for intensive and sustained improvement support that will focus on the Colorado Four Domains for Rapid School Improvement.**

GSN SUPPORT INCLUDES:

- A comprehensive, evidence-based review (surveys, focus groups, walk-throughs, etc.) of the school based on the CDE Standards and Indicators for Continuous School Improvement
- A final report that summarizes the findings of the review for official rollout to the entire staff
- On-site and virtual professional development and support for UIP planning, monitoring, and updating
- Coaching from highly experienced facilitators who can serve as thought partners, catalysts, and problem solvers from their own experience as superintendents, principals, and teachers

“ Their expertise in the UIP work has been tremendous, and the materials they provide to support our advisory program are great. We are free to manipulate the materials as we see fit, and go at whatever pace works best for our students. ”

- Las Animas Re-1, Las Animas, Colorado

DETAILS

- A grant offered by CDE, up to \$50,000 per school: \$25,000 for DR and \$25,000 for UIP planning, monitoring, and updating, may be available to fund this process for schools or districts with a Turnaround, Priority Improvement, or Improvement plan type.
